SUMMER HOLIDAY CAMP

Learning Mandarin & All Things Chinese

Introduction

This inaugural summer camp with core subjects in the mandarin language, Chinese martial arts and Chinese music, is probably the first ever created for school age children in Melbourne by Dr Moni Storz, founder & academic director at the Australasian Centre of Chinese Studies. The overall aim of the camp is to give students total immersion in the use of the Chinese language and culture and at the same time, giving them mental and physical training to be young leaders i.e. well rounded individuals who are taught to use tools for their overall psychological and physical well being. In short, this holiday camp will build a strong foundation for students to move forward in their Chinese studies with discipline and enthusiasm, the ideals of Accelerated Learning philosophy and teaching.

The aims of the camp are

Description of Camp

This camp is sleeping away from home for the whole period (4 nights) and students will have an experience of total immersion in all things Chinese. Three core subjects will be offered as options for students. The core subjects are Mandarin language, martial arts and Chinese string instruments, the pipa & er hu. These core subjects will run side by side with other common activities such as calligraphy, Chinese cooking, excursions, games, drama & Chinese culture, e.g. Chinese customs & etiquette, Chinese folklore, art & craft.

1. Build students' confidence and competence in the use of the Mandarin language, martial arts & musical instruments.
2. Teach students how to cook some Chinese dishes & the stories behind the dishes, e.g. *ma po tofu*, *zhu ruo* (roast pork), *wonton*, *dumplings*, etc
3. Introduce students to some Chinese musical instruments & how these are played.
4. Introduce students to martial arts for self defense and physical co-ordination
5. Teach students some Chinese etiquette (some dos and don'ts in Chinese manners, e.g. why do Chinese use both hands to present gifts? why do Chinese use *Lao* & *Xiao* as prefix as in *Lao Shi* & *Xiao Wang*).
6. Teach students Chinese calligraphy and improve their writing of Chinese characters
7. Teach students some psychological skills to de-stress, overcome fear & anxiety.
8. Train students physical skills in overall well being - eat well, play well, study well and sleep well (Accelerated Learning at its best).

DAILY PROGRAMME

- 7.00 AM *Wake up, warm up exercise, breakfast*
- 8.30AM *Core subjects: Mandarin or Martial arts or musical instruments (parallel classes)*
- 10.00AM *Tea Break*
